

It would be a great loss to the greater Sonoma County area if a LPFM station were to be given priority over current FM translator services such as K-Love. Our family, business, friends, teen club, and church have come to depend on family-friendly music and news that the station provides. Without KLove we would lack a station that could be played without risking that offensive music or comments could be played without warning. I don't need my teenage boys hearing about the free Lingerie show the local station is hosting (BYOB). Please help us raise responsible adults!
